## ATONE TESTAMENT FROM YNGWIE MALMSTEEN

I like the Celestion G12T-75 speaker because it is very fluid and complements the violin-like tone and feel of my guitar playing. I have used Celestions since the early days of my career in Sweden.

*Inspired by Jimi Hendrix and the 19th century violinist, Paganini, Yngwie Malmsteen's unique, virtuoso playing style has made him a legend among guitarists.*

*The unique tone of the Celestion G12T-75 has made it a legend among loudspeakers. Contact a Celestion dealer or visit [www.celestion.com](http://www.celestion.com) to find out what upgrading to Celestion can do for your tone.*
